## Run Your Own Race... Let the World Chase You

Presented by Lt. Col. Patricia Murray

This program will help you find the strength and determination to succeed on your own terms, turn any failure into an opportunity and to stop looking from side-to-side along the way. Powerful examples from life experiences demonstrate how circumstances play only a small role in our potential. It's the discipline to stay focused on goals and keep taking action while being true to yourself that ultimately brings the biggest and most satisfying wins.
